SUMMARY

Full stack web Developer (MERN) with hands on experience on both front-end and back-end technologies. Build more than 10+ websites from the scratch. Proven ability to collaborate effectively with senior developers while spending extra time to be mentored. Enjoy working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. With a passion for both personal growth and for software development, I attended a 500+ hour coding bootcamp to learn new technologies.
